

The Quilter MicroPro may well be the ultimate sleeper amp. Don't let the small size fool you. A rich feature set makes it quite possibly the most usable guitar amplifier ever created! You may just find yourself falling in love with the effortless tone and power. The MicroPro is made for professionals and it shows. The backlit panel, the comprehensive tone shaping, and the wide choice of speaker configurations make this the ultimate portable guitar solution.

The limited edition "Studio" model

Powerful:

Delivering up to a full 200 watts (100 per channel) the powerful and responsive tone will leave you speechless.

Portable:

The Quilter MicroPro 200 starts at 18.6 pounds making it lighter than many guitars in their case.

Professional:

With a host of features engineered for the ultimate in flexibility, the MicroPro is the perfect solution for professionals who need a grab and go amplifier.
