

Quilter™

Guitar Amplifiers

Built with pride
in Southern California

Powerful, lightweight, easy to operate. Everything you want in a good aircraft, everything you want in a good amplifier. The Quilter Aviator is quickly becoming the industry standard for touring professionals. With its responsive tone and vintage appearance, you'll quickly realize that this is not your average amplifier. The Aviator is a whole new generation of tonal possibility. Take one for a test flight. You'll never want to set your feet back on the ground again.
